Solid Wood Edge Banding 28-29

Front Frames 30-31

Drawer Boxes & Components 32-33

Finish Colors 34-43

Celebrating 50 Years of Craftsmanship

Meridian Products is proud to announce that we are celebrating 50 years in the custom cabinetry business. Over the past five decades, we have remained dedicated to innovation and quality, continually evolving to meet the needs of our customers and the demands of the industry.

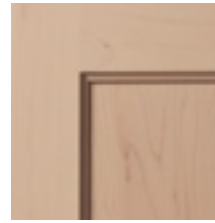

At our core, Meridian Products has the desire to be the most innovative and quality-focused custom kitchen and bath millwork manufacturer in the industry. As our industry trends toward more contemporary looks, like the skinny shaker and evolution designs, we plan to stay at the forefront of those trends.

Over the last two years, Meridian Products has developed almost 20 new skinny shaker designs, and we continue to develop our evolution colors and design options. Our new Two Coat Poly paints have enabled us to advance our finishing process to produce a more environmentally friendly, more durable, and smoother and cleaner-looking product.

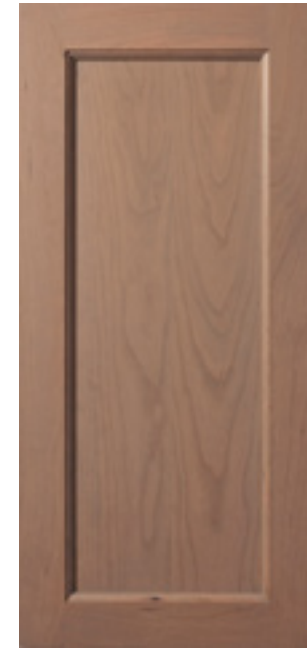

We pride ourselves on having an amazing team of knowledgeable and experienced employees who are true craftsmen and craftswomen. Our ability to manufacture unique, one-of-a-kind designs separates us from many others in our industry. In all we do, our products show our pride and dedication to our core values.

Our team works with a can-do spirit and aspires to give our customers an unparalleled level of service and support. We believe in these objectives so that we can enrich the lives of everyone we work with and craft for.

Photographs and renderings in this brochure are for illustration and reference only.

Actual wood and finish colors may vary due to printing process. Meridian Products always recommends ordering a sample door and/or drawer for accurate color selection and representation.

This brochure features many of our most popular door styles and finishes. However, there are many more options available. Please use our Product Manual for more detailed offerings.
